|                  | Brown                       |

| Key purpose of paper: | Report of Claims Portal status and activities in |
|-----------------------|--|
|                       | 2016   |
| Decisions required:   | Board approval to publish final version          |

#### Aims/Purpose

Claims Portal Limited is the organisation responsible for setting the Strategy, Finance and Governance of the Claims Portal. It also considers and approves changes to the Portal to improve its overall performance and functionality as well as new developments as a result of changes to judicial procedures.

# **Objectives**

The use of the Claims Portal for submission of personal injury claims where damages are anticipated to be between £1,000 and £25,000 is mandated under the Civil Procedure Rules in the Pre-Action Protocol for Low Value Personal Injury Claims in Road Traffic Accidents and the Pre-Action Protocol for Low Value Personal Injury (Employers' Liability and Public Liability) Claim.

The Company's objective and purpose is to develop, manage and administer through a claim routing portal or other mechanisms a claims process ("the Process") giving effect to the Pre-Action Protocol for Low Value Personal Injury Claims in Road Traffic Accidents and the Pre-Action Protocol for Low Value Personal Injury (Employers' Liability and Public Liability) Claims and related Rules as may be amended form time to time established or to be established by Parliament through the Ministry of Justice and to do so in accordance with those protocols and rules of the court. The Company will deliver the process to users and undertake such activities as are consequential to the management and administration of the process including all residual functions of a Project Steering Group established to oversee the development of the portal.

The service is available for use by lawyers authorised to conduct litigation in England and Wales, litigants in person and compensators. The terms under which access is granted and governed are regulated by requiring Users to sign a Portal User Agreement and adhere to its terms.

The role of the Claims Portal Limited Board is to ensure that the Portal facilitates implementation of the processes set out in these Protocols.

The objectives of the Portal include delivery of the following benefits:

- Transfer of information between parties in a more secure and efficient way
- Quicker and easier communication of decisions
- Reduced cost of communication
- By including some basic validation checks, the Portal helps to avoid inconsistent, incomplete or incorrect information being exchanged
- Meeting of published service level agreements (SLAs)
- Full availability of the service within the published availability times
- Access via application to application (A2A) and as a web service
- Provision of schemas for developers of A2A systems
- Provision of monthly management information
- Provision of a user helpdesk

### Governance and Structure

Claims Portal Limited is a not-for-profit company. The Board is made up of 12 non-executive directors, representing their stakeholders, plus an independent neutral (non-voting) chair.

# **Independent Chair**

The independent chair appointed by the Board is Tim Wallis.

#### **Board members**

The Board members are appointed by the following organisations:

- APIL (Association of Personal Injury Lawyers)
- MASS (Motor Accident Solicitors Society)
- TUC (Trade Union Congress)
- The Law Society of England and Wales
- ABI (Association of British Insurers)

MIB MSL are responsible for providing a managed service to the CPL Board, including:

- Management of the agreed SLA's with our technology partner
- Production of Management Information
- Project and change management
- Management of user accounts
- Procurement
- Accounting and financial management
- Communications
- Service delivery
- User audits
- Risk Management services
- Data Protection and Information Security advise
- Maintain the CPL website
- Management of calls to the Helpdesk

#### Finance

During the period from 1<sup>st</sup> January 2016 to 31<sup>st</sup> December 2016 Claims Portal Limited's income and expenditure was as follows:

Income £1,753,904 Expenditure £1,753,828

#### Portal Development - Release 5

Release 5 was implemented on 29th November 2016 and included:

- Changes to the Administration Console allowing Portal users to create branches, and changing the way the Administration User function worked to allow Users to have a single Portal login as both Administrator and other user types
- The addition of new fields for the askCUEPI reference, the Medco reference and the CRU reference
- Improvements to the Stage 2 offer and counter-offer functionality
- Some user journey improvements including field masking
- The introduction of functionality for the bulk transfer of claims between user organisations

Over the course of 2015 work had been done in planning more extensive improvements to the Portal. Following the November 2015 Autumn Statement announcement in relation to whiplash injury claims and the Small Claims Track, a decision was made to scale down the release in anticipation that these changes may necessitate further developments to the Portal in 2017 and the remainder of the proposed improvements, including the proposed introduction of User Pays, were put on hold.

#### Claims Portal website

CPL maintains a website at <a href="www.claimsportal.org">www.claimsportal.org</a>. The website contains Walk Throughs, replies to Frequently Asked Questions, and News and Announcements relating to the Portal.

CPL's Data Retention Policy is published on the website.

In order to provide an improved service to Users and reduce the requirement to contact the Helpdesk, improvements to the Claims Portal website have been commenced to improve search functionality to enable users to better access "how to" information in the relevant sections of the User Guides and FAQs.

#### Insurance Fraud Taskforce Recommendations

The IFT made one recommendation that required action by CPL: it recommended that CPL share data with the IFB.

Changes to the User Agreement have been made requiring Users to agree to the data sharing, and a pilot is to be implemented in early 2017. If the pilot demonstrates that the information will be valuable, a full data sharing process will be developed.

#### Audit

Over the course of 2016 CPL has commenced a programme of audits to ensure compliance with the User Agreement and high level lessons learned have been published for the benefit of the wider user community.

# **Our Suppliers**

Management service provider : MIB Management Services Limited

Technology partner: CRIF Decision Solutions Limited

Website developer: GrowCreate
Solicitors: Field Fisher LLP
Auditors: Smith & Williamson

# Behaviour committee

The role of the Portal Behaviour Committee, which is made up of claimant and insurer board members, is to assist with behavioural issues arising from the use of the Claims Portal. It provides guidance on appropriate and expected behaviour by the users of the Portal. The Behaviour Committee can be contacted via the Claims Portal website and findings are published on the website.

# Claims Portal Board

During 2016 the Committee received 15 complaints, of which 3 were upheld, 6 were not upheld and 6 were still outstanding as the end of the year.
